

Project Engineer / Civil

☀️ We're Hiring: Project Engineer – Civil ☀️

Freiburg is seeking an experienced Project Engineer – Civil with Transco competency to join our team for multi-million-dollar Oil & Gas Field water pipeline and Sewerage Process/Treatment Plant projects in Abu Dhabi.

Key Requirements / Qualifications:

- ✓ Proven experience as a Civil Project Engineer in Oil & Gas or Process Plant projects.
- ✓ Transco competency is mandatory.
- ✓ Hands-on experience in civil construction, project execution, and coordination with multidisciplinary teams.
- ✓ Knowledge of project planning, monitoring, and reporting.
- ✓ Strong communication, documentation, and stakeholder management skills.
- ✓ Bachelor's degree in Civil Engineering.
- ✓ ADNOC or other authority approvals are a plus.

Responsibilities:

- Plan, execute, and monitor civil construction activities ensuring compliance with project scope, schedule, and budget.
- Coordinate with site engineers, QA/QC, HSE, and subcontractors to ensure smooth execution.
- Prepare progress reports, technical submittals, and documentation for management and clients.
- Ensure adherence to Transco, client, statutory, and HSE standards.
- Assist in resource planning and risk management for project delivery.

📍 Location: Jebel Dana, Abu Dhabi – Site-based

📄 Experience: Minimum 5–10 years in Civil Engineering / Oil & Gas projects

✉️ Apply now: Send your CV to career@freiburgcgm.ae and join a team delivering excellence in ADNOC and Transco projects.
