

## QA/QC MANAGER

### ☀️ We're Hiring: Manager QA/QC ☀️

Freiburg is seeking an experienced Manager – QA/QC with a strong CMEI (Construction, Mechanical, Electrical & Instrumentation) background to lead quality assurance for multi-million-dollar Oil & Gas Field water pipeline project and Sewerage Process/Treatment Plant Projects.

#### Key Requirements / Qualifications:

- ✅ Proven QA/QC experience in ADNOC or Process Plant projects, including potable water pipeline works.
- ✅ Hands-on CMEI background with strong knowledge of quality standards, inspections, and documentation.
- ✅ Demonstrated experience in leading QA/QC teams and managing audits for large-scale infrastructure projects.
- ✅ Excellent reporting, communication, and stakeholder management skills.
- ✅ ADNOC-approved Manager QA/QC (with minimum 15 years of experience) preferred.
- ✅ Bachelor's degree in Civil or related Engineering discipline is required.

#### Responsibilities:

- Implement QA/QC plans, procedures, and inspection/test plans.
- Ensure compliance with client specifications, statutory regulations, and HSE standards.
- Conduct audits and inspections, and oversee all quality documentation.
- Coordinate closely with project, engineering, and client teams to ensure seamless execution.

📍 Location: Jebel Dana, Abu Dhabi – Site-based

📄 Experience: Minimum 15 years in Oil & Gas / Process Plant projects
