

## QA/QC ENGINEERS (MEP & CIVIL)

### ☀️ We're Hiring: QA/QC Engineers ☀️

Freiburg is seeking QA/QC Engineers to join our team for multi-million-dollar Oil & Gas Field water pipeline and Sewerage Process/Treatment Plant projects in Abu Dhabi.

#### Available Positions:

- QA/QC Engineer – MEP (1)
- QA/QC Engineer – Civil (1)

#### Key Requirements / Qualifications:

- ✓ Proven experience as a QA/QC Engineer in Oil & Gas or Process Plant projects.
- ✓ Strong knowledge of quality standards, inspections, and documentation for MEP or Civil works.
- ✓ Hands-on experience in implementing QA/QC plans, conducting audits, and site inspections.
- ✓ Ability to coordinate with project, engineering, and client teams to ensure quality compliance.
- ✓ Bachelor's degree in Civil, Mechanical, Electrical, or related Engineering discipline.
- ✓ ADNOC experience or approval is an advantage.

#### Responsibilities:

- Implement and monitor QA/QC plans and inspection/test plans.
- Conduct site inspections, audits, and verify quality documentation.
- Ensure compliance with client specifications, statutory regulations, and HSE standards.
- Prepare reports and progress updates for the QA/QC Manager and project management.
- Coordinate closely with project teams and stakeholders to resolve quality issues.

📍 Location: Jebel Dana, Abu Dhabi – Site-based

📄 Experience: Minimum 5–10 years in Oil & Gas / Process Plant QA/QC

✉️ Apply now: Send your CV to [career@freiburgcgm.ae](mailto:career@freiburgcgm.ae) and be part of a team driving quality and excellence across ADNOC projects.
