

PLANNING ENGINEER

☀️ We're Hiring: Planning Engineer ☀️

Freiburg is seeking an experienced Planning Engineer to join our team for multi-million-dollar Oil & Gas Field water pipeline and Sewerage Process/Treatment Plant projects in Abu Dhabi.

Key Requirements / Qualifications:

- ✅ Proven experience as a Planning Engineer in Oil & Gas or Process Plant projects.
- ✅ Strong hands-on experience with Primavera P6 for project scheduling and monitoring.
- ✅ Ability to prepare, update, and monitor project schedules, resource allocation, and progress tracking.
- ✅ Experience coordinating with project, engineering, QA/QC, and HSE teams.
- ✅ Strong analytical, reporting, and communication skills.
- ✅ Bachelor's degree in Civil, Mechanical, or related Engineering discipline.

Responsibilities:

- Develop, maintain, and monitor project schedules using Primavera P6.
- Track project progress, identify deviations, and recommend corrective actions.
- Coordinate with project managers and engineering teams to ensure timely delivery.
- Prepare reports, dashboards, and progress presentations for stakeholders.
- Ensure adherence to client specifications, statutory regulations, and HSE standards.

📍 Location: Jebel Dana, Abu Dhabi – Site-based

📄 Experience: Minimum 5–10 years in Oil & Gas / Process Plant projects
